

Walchbewegt

STORES/SHOPS

 Bahnhofstraße 29, 6700 Bludenz

With us, there are not only durable articles for the movement in the fresh air, but above all, personal discussions and concentrated advice. We want everyone who buys from us to be out and about for a long time. And of course we like to come by the shop.

We want to strengthen the connection between people and nature while always acting responsibly and sustainably.

Not only do we offer products of the highest quality that are ethically and environmentally friendly, but we are also actively committed to the longevity of these products.

Our in-house repair workshop ensures that your favorite pieces last as long as possible.
